FOR ALL** Pathways to Economic
Inclusion for Youth

Pathways to Success

PATHWAYS TO SUCCESS

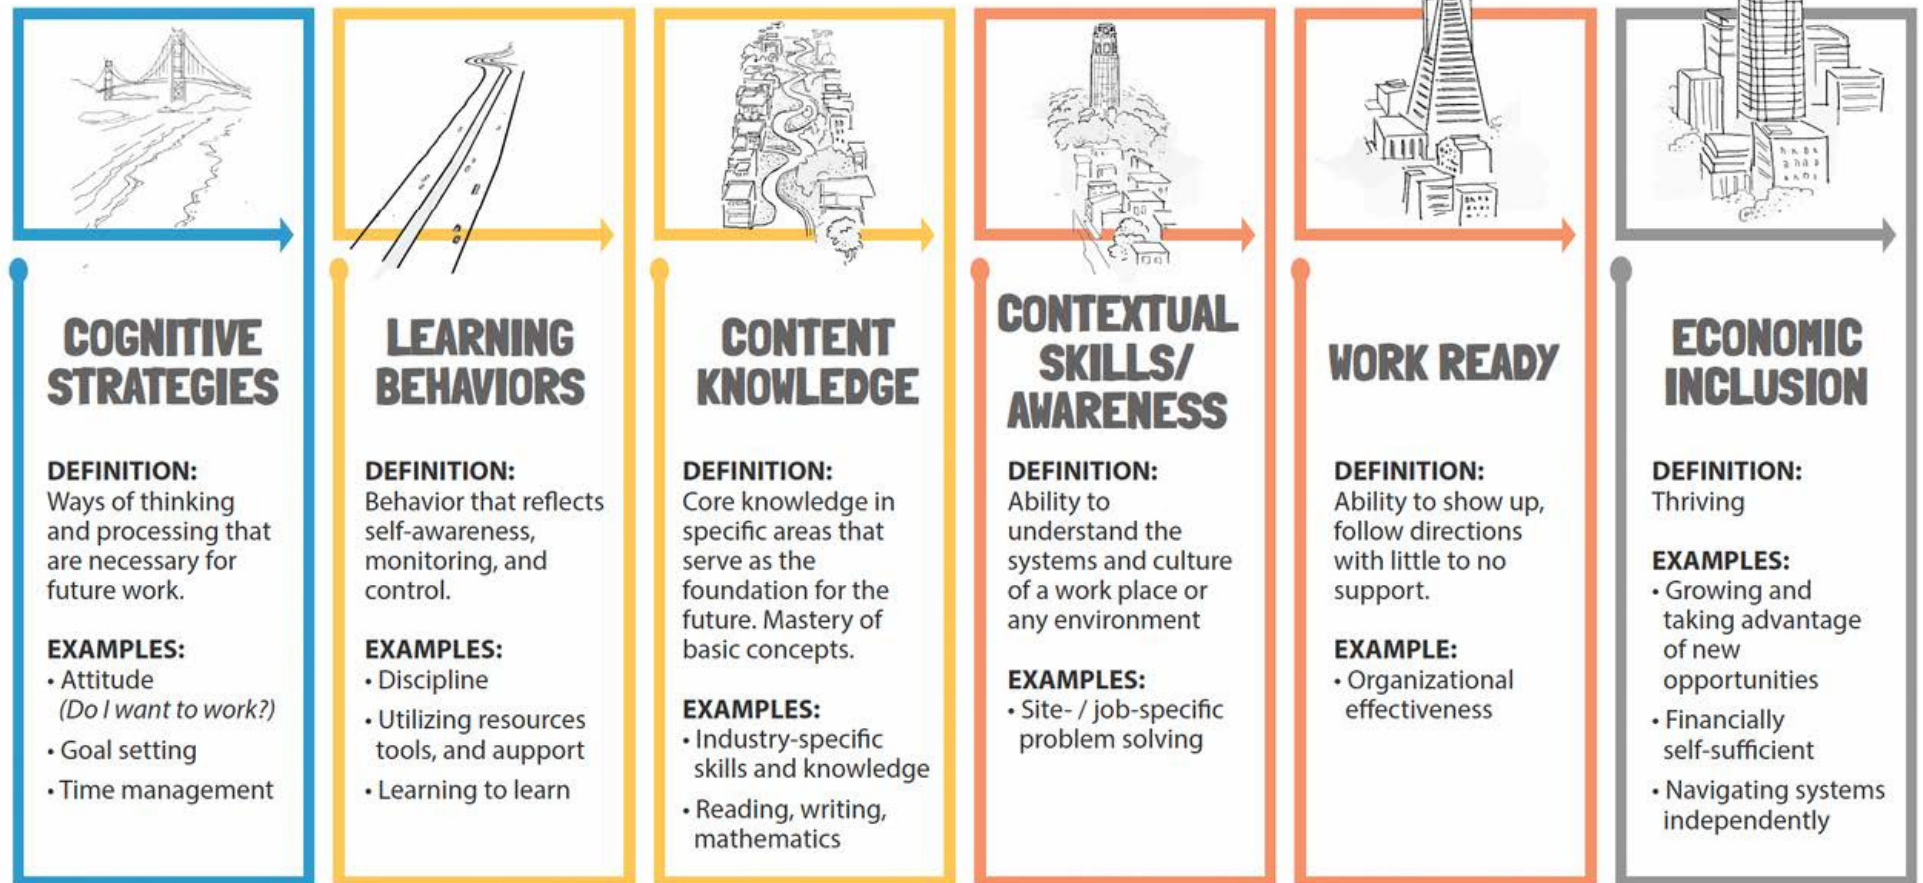

Opportunities for All is an initiative to expose and prepare diverse young people and connects them to employment, training and post secondary opportunities.

Developing Viable Pathways and Opportunities for Success

Opportunities for all is building partnerships and pathways focused on post-secondary success, career development, and economic mobility.

OFA is committed to meeting young people where they are in their journey. Successful work-based learning programs are comprehensive and operate with a level of intentionality. OFA incubates a multi-sector and multi-tiered approach, connecting a youth's experiences, interests, and skills with their relevant career industry.

Partnerships are the key to advancing this initiative

PLACEMENT > ACTIVATION > PREPARATION > SPONSOR

PLACEMENT

Placement at sites provides opportunities for young people to gain a myriad of skills from employers. Youth build social capital, gain new skills, and potentially help provide new ideas and insights to their placement sites.

HOST

Let's identify youth who can spend their summer working at your site.

HIRE

Let's partner and place the right employee into your paid job opening

SUBSIDIZE

If you are unable to host or hire at this time, consider making a donation to support the cost of a young person's stipend.

ACTIVATION

Many youth don't understand how education is linked to their future work opportunities. The "Opportunities for All" initiative seeks to activate learning and connect youth with resources, support, and experience to help them achieve success in the labor market.

MENTOR SERIES

On Thursdays throughout the summer, professionals join panels and workshops, sharing more about their specific industry with young people. From Education to Entertainment to STEM, youth spend the morning exploring a potential career path.

SITE VISITS

Open your site for groups of young people to visit, observe, and learn.

WORKSHOPS

Facilitate a workshop or activity and take a deeper dive with cohorts or small groups.

PREPARATION

Increasingly, people are realizing the importance of coupling education with employment preparation in order to adequately prepare all youth for success in the workforce.

MENTOR

- Help inform and develop curriculum
- Speak to a group of youth
- Offer guidance to individual interns

SUPPORT

Support a Community Safety Initiative (CSI) cohort Fellow during their planning process, providing them with insight and information in your area of expertise. Dedicate at least 2 hours during their planning week, and be available to answer questions from the cohort Fellow during their engagement.

WORKSHOPS

The steps to success require investment in youth and systems. In order to meet our target of youth reaching economic inclusion, we need the support of our sponsors.

SPONSORSHIP INFORMATION

Studies show when programs are embedded with mentors, personal development (financial literacy/empowerment, conflict resolution) and work based learning, outcomes for success are improved. Youth save more money, decrease incarceration and mortality rates, and increase career and college readiness.

**Youth are compensated
all along the journey.**
